# SIVATECH FIRE SAFETY TRAINING

## LEGAL REQUIREMENTS FOR FIRE SAFETY

Employers have a legal requirement to comply with the Fire Precautions (Workplace) Regulations. This includes firstly, minimising the possibilities of a fire occurring within the workplace by conducting risk assessment, and secondly, instructing all employees what actions should be taken in the event of a fire occurring.

Sivatech in Association with Buckinghamshire & Milton Keynes Fire Authority, can offer a structured and comprehensive range of Fire Safety Training courses to help your organisation protect its business and meet the legal requirements.

All training courses are conducted by fully qualified Fire Officers and can be delivered at the customers' premises or at our fully equipped '**Centre of Excellence**'. We can also provide bespoke courses tailored to your needs.

Courses available are:

- Basic Fire Awareness
- Fire Warden
- Fire Safety Instructors
- Fire Awareness
- Managing Fire Safety

Most courses include practical use of fire extinguishers.

All students receive a certificate of attendance.

# SIVATECH FIRST AID TRAINING

Under the Health and Safety (First Aid) Regulations 1981 and Approved Code of Practice (ACOP L74), employers have a legal obligation to provide adequate and appropriate First Aid provision to their workforce. Correct First Aid provision can help employers reduce costs from injury, prevent minor injuries from becoming major ones and could save lives.

Each employer is required, by law, to make an assessment of significant risks in the workplace and to decide the level of First Aid cover. Once this has been established, First Aid at Work training should be undertaken by competent employees.

Sivatech can provide professional, structured and Certified First Aid at Work Courses, recognised by the Health & Safety Executive, to ensure employers are meeting the legal requirements in protecting their employees and, thus, protecting their business.

First Aid courses available are:

- First Aid at Work - 4 Days
- First Aid at Work Refresher - 2 Days
- Appointed Persons First Aid - 1 Day

In addition, we are able to provide bespoke training to meet the specific operational requirements within business, social and leisure organisations.

Training can be provided at our '**Centre of Excellence**' with its dedicated training rooms or as a customer on-site option.

# SIVATECH HEALTH & SAFETY TRAINING

Sivatech Training Solutions offer tailor made solutions to individual businesses requiring advice and certification in Health and Safety.

Sivatech together with our partners, can offer bespoke training courses for various Health & Safety requirements, from Manual Handling through to a full NEBOSH qualification.

Many of these courses can be delivered at the Sivatech '**Centre of Excellence**' or at the customers' premises.

As Winners of the Aylesbury Business Excellence Awards for 'Customer Service', Sivatech are proud to offer first class training and a flexible approach to each of our customer's needs.

## PRICES

Prices for all training courses are available on request and are dependent on course requirements and the delegate numbers.
